

WPS Health Solutions

After World War II, more than 300,000 soldiers—13,000 of them wounded—returned home to Wisconsin, placing stress on the state’s health systems and shining a bright light on the need for affordable health insurance. WPS was born in 1946 to meet both of these demands.

More than seven decades later, WPS Health Solutions is still a leading not-for-profit health insurer in Wisconsin, and our services have grown to reach active-duty and retired military personnel, seniors, and families in Wisconsin, across the U.S., and around the world.

The expertise WPS has developed over the years has enabled the company to become a successful provider of administrative services for the U.S. government. **WPS Government Health Administrators** manages Medicare Part A and Part B benefits for millions of seniors in multiple states, and **WPS Military and Veterans Health** serves millions of members of the U.S. military and their families through TRICARE and Veterans Administration programs.
